

Clayton County

SPL  ST

Progress for Pennies

Active Projects: June 2, 2020

Clayton County Board of Commissioners

Left to Right: Commissioner DeMont Davis (District 4),
Commissioner Felicia Franklin Warner (District 3),
Chairman Jeffrey E. Turner,
Commissioner Sonna Singleton Gregory (District 1),
Commissioner Gail Hambrick (District 2)

Northwest Branch Library District 2

Update: Northwest Branch Library is approximately 95% complete. All interior and exterior framing and exterior brick are complete. Installation of the facility’s plumbing, electrical, heating ventilation and air conditioning (HVAC) are complete. Interior finishes and site work are nearly complete.

The Clayton County Library System contributes to the community and its citizens by offering services that meet their informational, educational, and leisure interests. There are six libraries located in the County and a total of 2992 library programs and over ½ million books. A new library provides Clayton County residents the opportunity to enrich their lives by offering them an additional resource to find information that is important to them.

This seventh library will be constructed with enclosed and individual rooms, meeting rooms designed with a capacity of more than 40 people. Areas known as Maker’s Space will be included for creative activities. The furniture, fixtures, and equipment will be mobile and easy to move around and will include charging stations for phones, laptops ,and other mobile devices.

Library Improvements Districts 1, 2, 3, & 4

Update: (Ongoing)

The Clayton County Library System is a member of GALILEO, Georgia's 'virtual library,' which facilitates online access to over 100 databases for researchers and students.

These projects involve improvements and renovations to the Library Headquarters on Battle Creek Road, which includes needed roof repairs, updated lighting and painting of the exterior of the building. The Riverdale and Morrow branches need renovations to the walls and skylight respectively. These projects are funded 50% by the State of Georgia and 50% by SPLOST.

Modernization of Service Vehicle Fleet Districts 1, 2, 3, & 4

Update: (Ongoing)

Clayton County utilizes more than 600 service vehicles to support government operations, not including public safety. Service vehicles' average ages have typically exceeded 12 years and well over 100,000 miles. As the age and mileage of vehicles increased, so did annual repair costs and the amount of vehicle downtime due to repair. Vehicle safety concerns also increased for many older vehicles.

With the approval of joint funding (with both SPLOST and Capital Fund sources) the aging fleet is being replaced. Priority is being given based on vehicle age and mileage. This will reduce annual cost to maintain and repair vehicles, reduce major repairs, and improve vehicle availability. In all, 83 service vehicles are being replaced among 15 county departments. Of these, 53 are funded by SPLOST and 30 by the General Fund.

Welcome to Clayton County Signage & County Borders Districts 1, 2, 3, & 4

Update: Clayton County has completed Phase 1 and Phase 2 of the branding initiative. Phase 3 (which includes logo and tagline) is underway.

Often times residents and/or visitors are unaware of when they have entered into Clayton County. Greeting signs with the verbiage “Welcome to Clayton County” will be strategically placed to cover the North, South, East, and West entrances into the County. The greeting signs will showcase the County’s new brand and image to provide our citizens and visitors with a more welcoming feel when entering into the County, including the airport area.

Full TV Station Remodel (CCTV-23) District 4

Update: Clayton County has completed Phase 1 and Phase 2 of the branding initiative. Phase 3 (which includes logo and tagline) is underway. A presentation of the logo is scheduled for June 16, 2020, at the regularly scheduled Board of Commissioners meeting.

Clayton County Access Television (CCTV-23) provides educational, informative, and entertaining programming to citizens about the services that are available in Clayton County. Upgrading equipment and expanding the studio will allow for production of new educational segments, higher definition programming, and studio tours for citizens and students. The current studio location needs renovations to accommodate additional features such as lighting, set design, sound barriers, and equipment. Remodeling CCTV-23 will contribute to enhanced viewership, appeal to a wider audience, and strengthen the overall communication efforts of the county.

Small Business Incubator & Records Center District 1

Update: (Ongoing)

The Small Business Incubator will provide a combination of resources to help grow and promote young business in Clayton County. This project will be combined with the County's Record's Center Building SPLOST initiative in order to provide public access to County records and historical information. The building will provide Class-A office building space at the entrance to Clayton State University to attract and house multiple businesses and economic development activities. This project would bring together all the community resources needed to promote business, investment, and job growth in Clayton County, in one location. Finally, this development will reflect the urban design at University Station, including retail space for a coffee shop/bookstore and restaurant/cafe near Clayton State University.

Fire Station 9 District 1

Update: (Ongoing)

The progressive thinking on the part of the team means that this project will feature the design of a Fire Station for Clayton County that emulates the best features and functional characteristics of state-of-the-art fire stations. Special units will include a tactical medical team, search and rescue team, a community emergency response team, a community treatment unit and fitness/wellness program for fire fighters. Successful models of public safety are emulated that include a highly trained and disciplined teams operating in an environment of support and growth potential.

Sector 2 Police Precinct District 2

Update: Sector 2 Police Precinct facility is 95% complete, and the punch list inspection activities have taken place. Site construction is in progress.

A new police precinct is being constructed in Riverdale to replace the existing facility. This facility will serve the Clayton County Police Department as they continue to enforce the law fairly and firmly, to prevent crime, and pursue and bring to justice those who break the law. The new facility will better support the efforts of the Clayton County Police who are trusted to keep the peace, protect, serve and help the people of Clayton County, with integrity, common sense, and sound judgment.

Jail Security Access Video Surveillance System District 3

Update: The video surveillance materials and software are currently being installed.

The contractor will plan, design, and implement a comprehensive jail security/access control/video distribution system to include software, hardware, integration and training. This comprehensive system will replace the existing outdated proprietary system that is costly to maintain. Further, it will provide and enhance overall security and safety measures while improving effective

Correctional Facilities Renovations District 4

Update: (Ongoing)

The Clayton County Prison, located in Lovejoy, has a current capacity of 242 inmates mainly classified as minimum to medium risk. The inmates are housed in an open dormitory setting and can participate in work detail and custodial positions with various Clayton County government agencies.

This project will include construction of a new dormitory area, which will also include a new visitation room and medical services area. A new transitional area is proposed, which will provide 25 beds for inmates who participate in the work release program. Additional improvements will be made to the building's interior and to the exterior infrastructure.

Modernization of Public Safety Fleet

Districts 1, 2, 3, & 4

Update: (Ongoing)

Clayton County utilizes more than 700 vehicles in support of public safety operations, including first responder vehicles. The average age of a first responder vehicle exceeds an average age of more than 6 years and close to 100,000 miles. Annual repair costs and vehicle downtime due to repair is an important concern to ongoing public safety support. Safety concerns for the driver/operators also increase as the age of the fleet increases.

Joint funding was approved to use both SPLOST and Capital Fund sources to begin replacing the aging public safety fleet. Priority was given based on vehicle age and mileage. This will reduce annual cost to maintain and repair vehicles, reduce major repairs and, improve vehicle availability. Two-hundred-twenty-seven (227) public safety (Police Department, Sheriff's Office, and Fire/Emergency Management Services Department) vehicles are being replaced. Of these vehicles, 210 are funded by SPLOST and 17 are funded by the General Fund.

Parks & Recreation Administration Building District 4

Update: District 4 Recreational Center is approximately 85% complete. The exterior masonry and exterior panels are in progress. Also, installation of the roof and interior framing is nearly complete. Window and elevator installations have begun. Interior finishes are ongoing. Installation of the facility's plumbing, electrical and HVAC components are in progress.

Located in International Park in Jonesboro, the planned District 4 Recreation Center plan has been combined with the new Parks and Recreation Administration Building project to create one new complex. The new facility will be integrated with the Lake Spivey Trail, part of the Clayton Connects trail system. It boasts a modern, family-friendly design with a lodge feel. In addition to an indoor swimming pool, this center will provide new amenities never offered to our citizens before such as:

- Spin Cycle Studio
- CrossFit Training
- Cafe and Coffee Shop

New administrative offices will provide a central location for the administrative staff to plan and supervise various services. Administrative services are comprised of marketing and sales, budgetary functions, procurement, and guest services. Here, residents will be able to register for programs, pick up information, volunteer, and learn about upcoming signature events.

Northeast Senior Center District 1

Update: The Northeast Senior Center facility is approximately 85% complete. The facility's plumbing, electrical, and HVAC are currently being installed. Also, the exterior panel and brick installation is in progress. Window and frame installation is progressing. Roofing is nearly complete and interior finishes have begun. Pool installation and site work is ongoing.

Clayton County Senior Services Department enhances the quality of life for elderly citizens by assessing and expanding an in-home service delivery model. The programs offered are designed with an emphasis on health and wellness, which include health screenings, exercise programs, nutrition, education, and field trips.

Located on Anvil Block Road in Ellenwood, this new Senior Center will be the fourth SPLOST-funded Senior Center in Clayton County. It will provide the opportunity for expanded services and programs that promote independence, dignity, and enhance the quality of life for older adults. New features include a lap swimming pool, state-of-the-art fitness center, a community garden, and large multipurpose space for performing arts and other activities.

Southwest Intergenerational Center District 3

Update: Southwest Intergenerational Center is 80% complete. The installation of the interior and exterior walls, interior plumbing, electrical and HVAC are progressing. The installation of the exterior brick and glass are in progress. Additional site construction is in progress and will include a parking lot curb, gutters and site grading. The roofing installation is nearly complete, and the interior finishes have begun.

The project is referred to as the Flint River Community Center, and it will be located on a 21-acre site on Flint River Road. This is a collaborative effort between the Senior Services Department and Parks and Recreation. This facility will provide recreation and activity areas for multiple generations of families to share. It will feature for the first time in Clayton County, a “Black Box Theater” designed especially for live performances with flexible stage and sitting arrangements. The facility will also feature areas for all ages such game rooms, exercise rooms, a multipurpose gym area and outdoor splash pod.

VIP Complex Renovations at International Park District 4

Update: The VIP Complex Renovations project is currently in the design phase.

This project will enhance the VIP Complex at International Park with renovations and an outdoor amphitheater arena with additional covered seating. The amphitheater will host concerts, festivals, and cultural activities. Other enhancements include event administrative space, dressing rooms, additional concessions, redesign of restrooms, backstage facilities, and vendor kiosks. The main concept for this redesign is to integrate outdoor spaces while maintaining a multi-functional facility. Additionally, structural challenges and cosmetic work will be part of the redesign of the VIP building and amphitheater.

The International Water Park District 4

Update: The International Water Park is 5% complete. Preliminary surveying is complete, and site demolition and site work construction have begun.

The International Water Park renovation integrates outdoor spaces while maintaining a multi-functional facility. The total cost and construction schedule are being developed as a result of the completed Master Plan. Construction is anticipated to be completed by summer 2021. International Water Park improvements include:

- Sky Walk Adventure Climbing
- Boardwalk
- Food truck area
- Nassau Building renovation
- New dog park
- New entrance
- New water park with pools, splash pad, lazy river, wave runner, kiddie pool, etc.
- Party deck
- Pavilions and cabanas overlooking the International Water Park

Comprehensive Justice Management & Informational System Districts 1, 2, 3, & 4

Update: (Ongoing)

A comprehensive criminal and civil case management system will track a case from initial citation or case initiation to final deposition. This project will include workflow automation, e-filing, case management, intelligent reporting, and a modern e-mail solution that will be compatible with all potential solutions and customizable dashboards for reporting and statistical analysis. This modern system will replace the current comprehensive justice information system and will be available to Superior, State and Magistrate Court Judges, Clerks, the Police Department, the Sheriff Department, the Solicitor General, District Attorney, and other municipalities within Clayton County. The solution will include costs associated with hardware, data migration, training, and system evaluation.

Enterprise Resource Planning Districts 1, 2, 3, & 4

Update: (Ongoing)

This project will include planning, designing, procuring, and implementing an enterprise technology solution to include software, hardware, integration, and training. This critical need will replace antiquated, stand-alone systems impacting operations within the Finance Department, Human Resources Department, Tax Administration, Property Assessments, Business Intelligence, and Records Management Department. A comprehensive solution will improve data management effectiveness through the provision of one central repository across county departments. Further, this solution will prompt a reduction in operating expense and provide a comprehensive snapshot to improve strategic planning, decision-making, data analysis, and deliver clear and transparent reporting. The Tax Management Software System is also included in this project.

Information Technology & Training Center District 3

Update: Information Technology Headquarters & Training Center facility is approximately 90% complete. The installation of the window frames, glass, and interior and exterior walls are nearly complete. Installation of the exterior brick is complete. Interior finishes have begun and site work is progressing.

Clayton County's key technology infrastructure and operations has been housed in a 40+ year old building that has exceeded technology, training, and staff capacities. This SPLOST initiative is to build a new technology operations center and a secure, hardened data center. Notably, the new operations center will serve as the county's primary technology training center with flexible classroom space for up to 42 people. This is more than triple the current training capacity and is designed to provide ongoing professional development for county employees on the software systems being used.
